SERIES GUIDE

Series Guide

1980s TV hit "Knight Rider" won fans with hero Michael Knight's dream car, the "Knight 2000": its revolutionary design and its spectacular car chases. The pairing of the hero and KITT, the electronic brain built into the Knight 2000, kept viewers around the world glued to their TV screens, and it is still talked about today.

"Knight Rider": the car-action drama the whole world once went wild for. The Knight 2000, the car with an electronic brain that starred as hero Michael Knight's partner, is reborn today!

The "Knight Rider" series owed its success to the charisma of its hero, Michael, and his partner, the Knight 2000 (nicknamed K.I.T.T.).

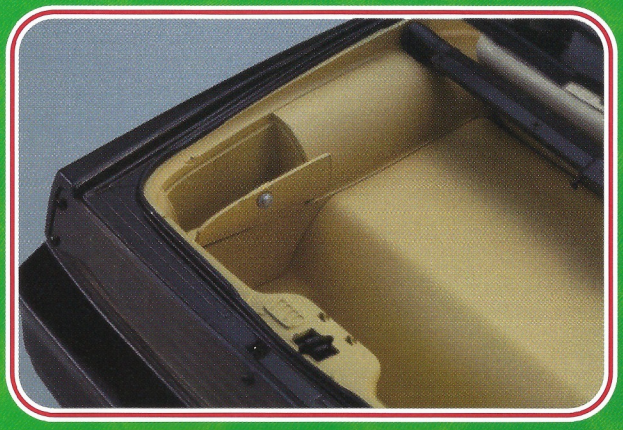

K.I.T.T.

At last, a model that faithfully re-creates the legendary dream car, the Knight 2000, is here! Built on GM's Pontiac Firebird Trans Am, the Knight 2000 won fans over with mechanics that were revolutionary for the 1980s and its streamlined form. Assemble the parts supplied with each issue and you'll complete a 1/8 scale model of the legendary car!

A rotating mechanism lets the car display three different license plates.

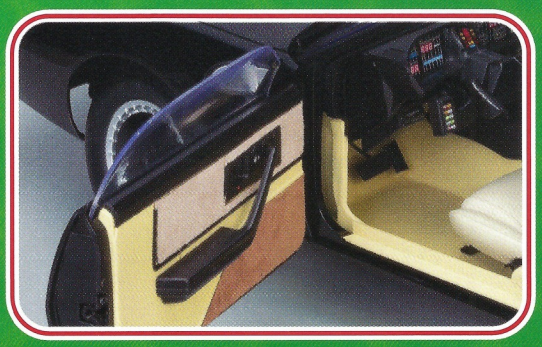

The tonneau cover under the rear hatch moves, and the toolbox opens and closes too.

Use the included wristwatch-style tool (Comlink) and...

- The headlights and scanner light up!
- Hear the Knight 2000's lines from the show!
- Motor and special-device sounds play!
- The show's opening theme song rings out!

Dream Car Has Arrived!!

Once it fought evil beside a Knight of justice: now the "Knight 2000" lives again in our time!

Operating the Comlink turns on the front lights and headlights, along with sound.

Remote control via the Comlink!

"I am the voice of the computer built into the Knight 2000. Call me K.I.T.T. Or KITT, if you prefer."

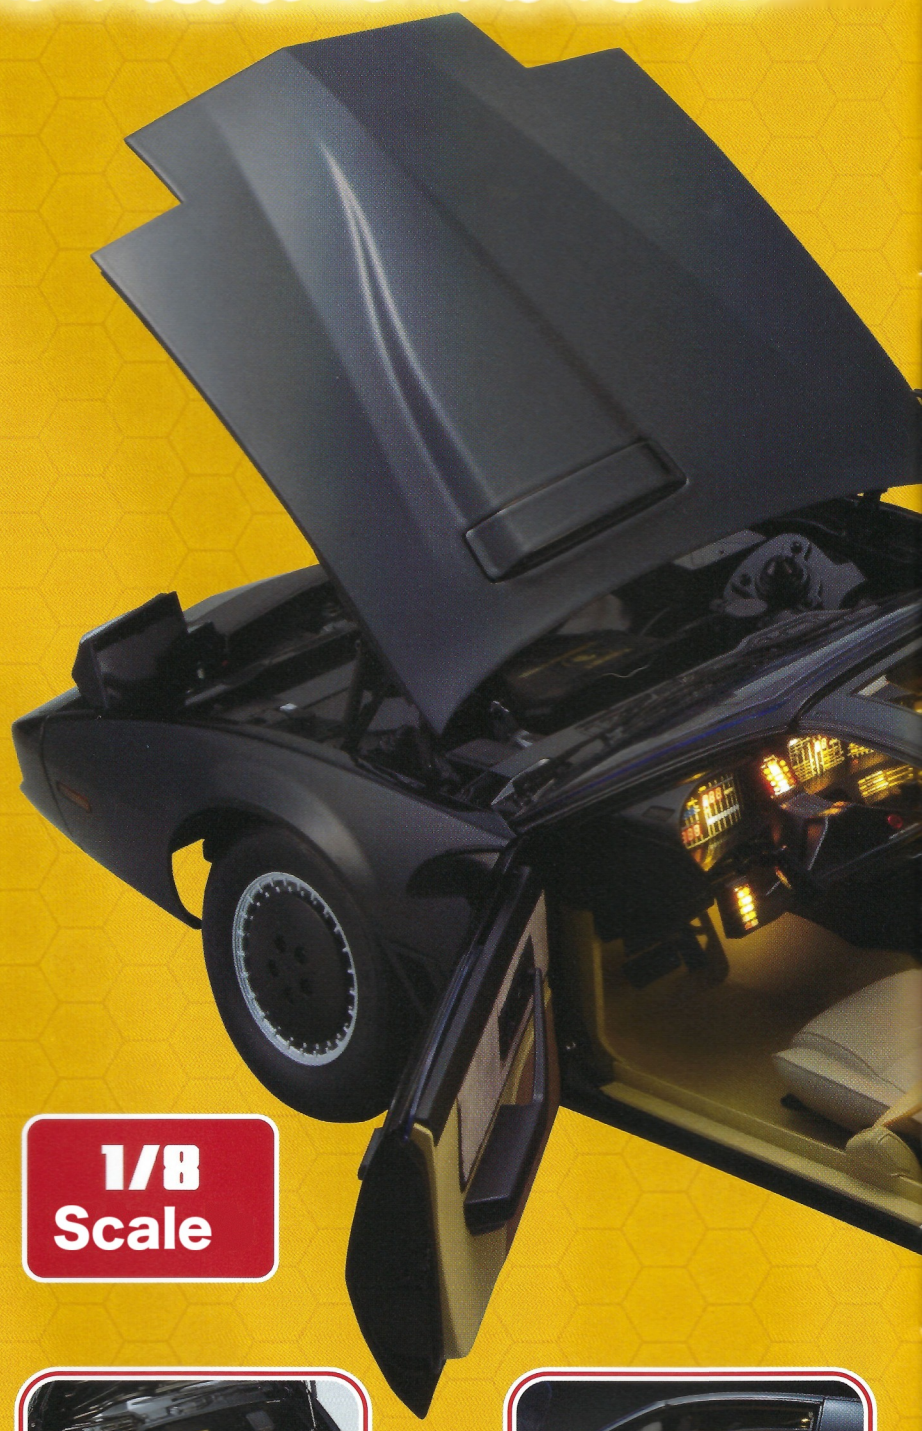

"I'm sorry, but neither is possible."

"Michael, please don't lump me in with tow trucks and pickups. I'm loaded with delicate electronic equipment."

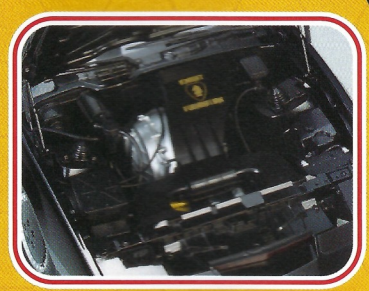

"Be careful, Michael."

"I've never been partnered with anyone but you, but the odds of my finding a partner more in tune with me than you are less than one in a thousand."

Operate the included wristwatch-style Comlink tool to hear the Knight 2000's lines from the show in two versions, English and Japanese. It also works a range of gimmicks, starting with the scanner light.
