"FAST & FURIOUS" WORLD

Welcome to the "Fast & Furious" world! You're part of the "Family" too.

The first film in the series, "Fast & Furious" (original title "The Fast & the Furious"), opened in autumn 2001, and in Japan it is fondly known by the nickname "WaiSupi." At first it was expected to be no more than "another new street-racing movie," but in the best possible way those expectations were betrayed, and it set off a new whirlwind in the film world. "Fast & Furious" broke box-office records on an unprecedented scale, and every time one of its sequels has been released it has kept enchanting audiences and winning new fans.

Action films that have woven in such big themes as "friendship" and "family" this masterfully, and succeeded, are rare. Add to that actors who capture people's hearts in an instant and, above all, the appeal of the many legendary cars that streak across the screen like lightning, and it is easy to see why this series became a smash hit. The appeal of the headlong races that unfold at this blistering speed overwhelms everyone. The "Fast & Furious" series is one of the most thrilling series in film history, and in each film Dominic and his crew astonish viewers with endless, acrobatic car action.

In any case, no one could possibly stand against the charm of a brave group determined to protect their own worth, their integrity and their freedom, set in exotic countries to superb music.

Exuding an overwhelming presence in
"Fast & Furious": the Dodge Charger R/T.

More than 15 years after the first film, the "Fast & Furious" series.
Become a member of Dominic's "Family."
Discover the world of "Fast & Furious" through the cars' technical details, anecdotes, replicas and memorable scenes, and see why the series is so loved. This Dodge Charger R/T model, recreated at 1/8 scale, true to every detail, is surely the dream car for modelers and car fans alike. Build it and you will be immersed in the world of "Fast & Furious."

The series is complete in 110 issues.

All car action scenes in this film are performed by trained professional stunt drivers, with full preparation, on roads closed for filming.
Reckless driving on public roads is extremely dangerous and illegal. Never imitate it.

Dodge Charger R/

We unravel the secrets of the powerful Dodge Charger, a car that even Dominic Toretto hesitated to take the wheel of.

It is sure to become a favorite in your model collection.

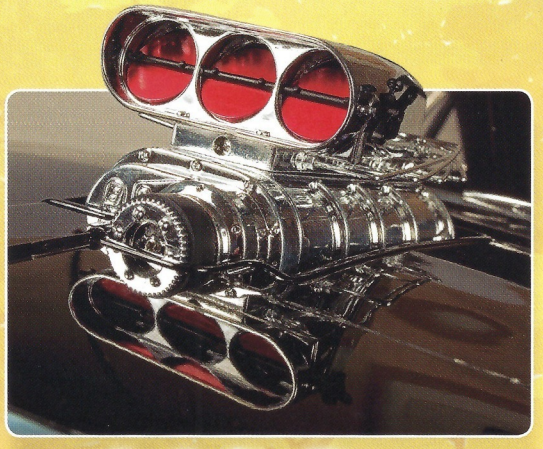

The explosive roar unleashed by its flawless curves is a contrast to its elegant exterior, as if it had a fierce personality of its own. The Dodge Charger has now become the most famous and popular car in Universal Pictures' flagship "Fast & Furious" series. When the dangerous car action begins, the excitement goes to the max!
