STAR WARS™

BUILD YOUR OWN X-WING

SERIES GUIDE

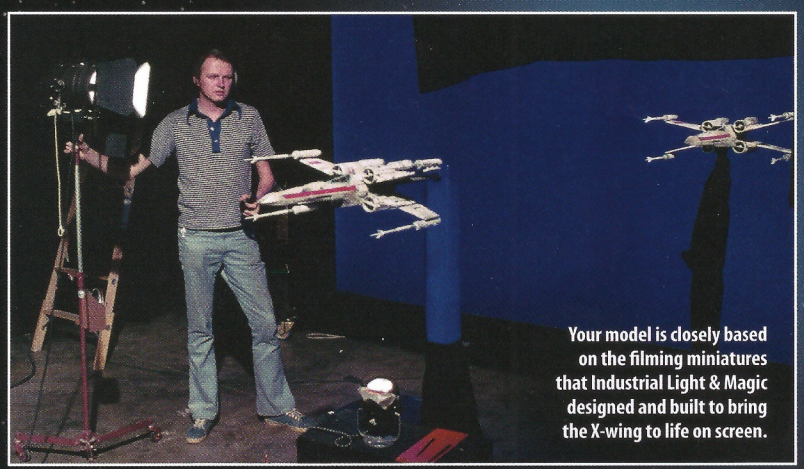

DeAGOSTINI

BUILD THE X-WING AND

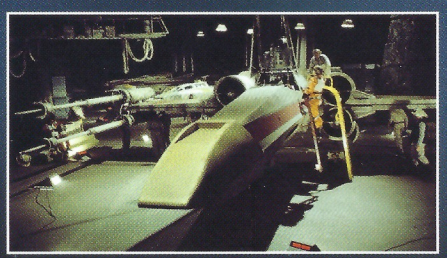

Inspired by the movie props from *A New Hope* and *The Empire Strikes Back!*

In 1977, the X-wing became a science-fiction icon when Luke Skywalker flew it to victory over the Death Star. Now you can build your own truly amazing starfighter. This highly detailed 1:18-scale model is based on the special-effects X-wing miniatures that were created by Industrial Light & Magic for filming *Star Wars: A New Hope*, making this model a stunning re-creation of a truly legendary spacecraft.

Your model is closely based on the filming miniatures that Industrial Light & Magic designed and built to bring the X-wing to life on screen.

The large 1:18 scale allows the model to feature many technical details from the full-size props used to film the live action in the original trilogy.

A TRULY

INSIDE EVERY ISSUE OF B

CREATING A STARSHIP FLEET

Starting with the *X-wing*'s own fascinating story, explore how the movie makers at Lucasfilm and Industrial Light & Magic created an amazing world of space craft and space stations, including the *Millennium Falcon*, TIE fighters, *Slave I*, Star Destroyers, Death Stars and many more.

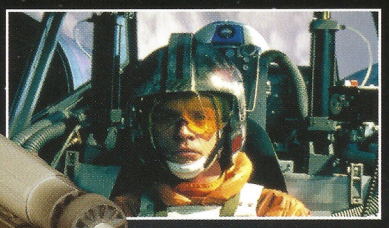

STARFIGHTER ACES

What does it take to fly a starfighter? Learn about the training, tactics, battles and adventures of the greatest aces in the galaxy, and explore the *Star Wars* universe from a unique viewpoint!

DISCOVER ITS SECRETS

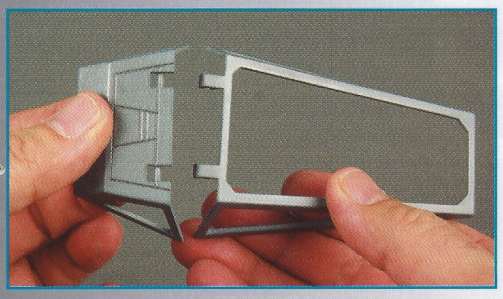

Your X-wing model includes a cockpit based on the full-size props, complete with pilot's seat, controls and instruments.

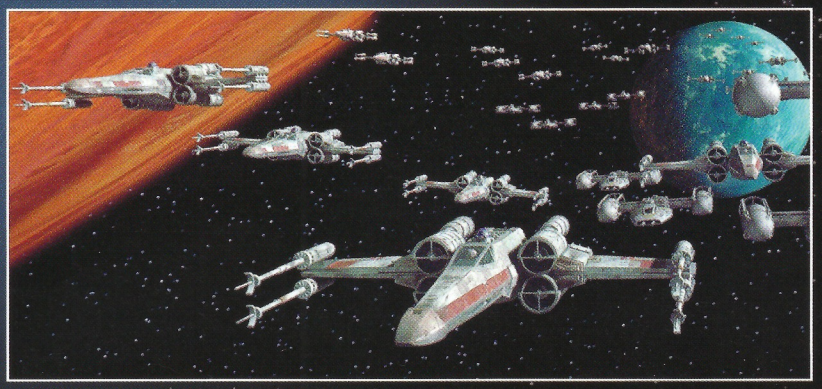

Your model replicates the X-wing that was assigned to Luke Skywalker to fly as a member of Red Squadron under the call sign Red Five.

Making your model

Your X-wing is easy to build from the high-quality metal and plastic parts that come with each issue, using the screws and other fixings provided. Simply follow the detailed step-by-step instructions in the magazine to assemble your own large-scale model of the starfighter from the movies.

Model parts are precision-engineered and pre-finished, and either press or screw together for easy assembly.

Y STUNNING MODEL

BUILD YOUR OWN X-WING

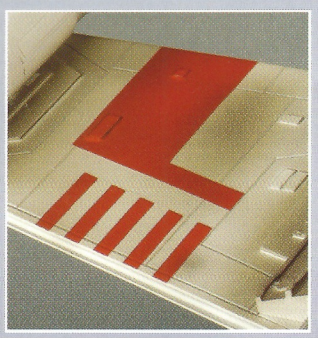

BUILD THE X-WING

This clearly illustrated step-by-step guide shows you how to put together each week's components. With parts made from materials that replicate the original perfectly, even beginners can achieve a completely authentic look with ease.

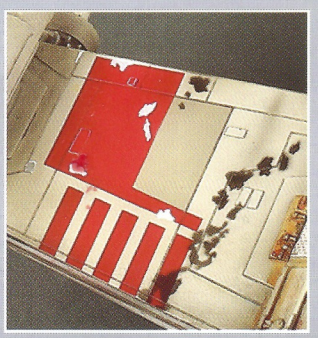

Custom-painting instructions

All parts are supplied pre-finished to a high standard, but we include reference photos and steps showing how to add your own battle scars and distressing to give the model extra authenticity as seen in the example below.
